High-Grade CANNAS are Money Makers

We are the largest Canna growers in the world and grow on our own Canna farm over one million (200 varieties) annually. Buy your Cannas now, direct from the grower, getting the true kind; save money and avoid disappointment. Our home-grown stock is not to be compared with common southern-grown stock, that is raised by cheap colored help, never thoroughly ripened, badly mixed, and which has been kept in boxes ready packed for several months; the so-called contract-grown roots contain mostly a heavy loss on shriveled-up roots. We offer below well-cured, sound, plump, 2, 3 and 4-eye pieces, and to be true to name. Our Cannas will be packed after the orders come in, in light boxes or barrels, and we secure the lowest express rates. 250 at 1000 rate. 25 of one variety at 100 rate.
